World All-round Speed Skating Championships

Until 1907 only a winner was declared, if winning at least (all, 1889) three distances of the four ones. If not, no winner was declared. 1908 - 1925 ranking points (1 point for winning the distance, 2 points for the Runners-up and so on) were awarded. 1926 and 1927 the ranking points were calculated by the skater's time and the world record (in %). The rule being the World Champions by winning at least three distances was still in use until 1986.

I.	*1889, Jan 08 - 09*	*Amsterdam NED unofficial*

[1] After qualification races at every distance the top four skaters of each single race compete again in the final races.
[2] Only qualification race at the ½ mile distance.
[3] Qualification race at the 500 and 1.500 m.
[4] SINNERUD Peter NOR who won all four distances was disqualified as he had once participated in a professional race.
